THE 88 AND 65 NOTE (INNER-PLAYER) PIANO

Manufactured only by the Cable Co., is the latest production of our factory.

Its distinctive feature is a scale which covers the full range of the piano keyboard (7 1/2 octaves), and therefore allows music rolls to be used which are not abridged from the composer's original scores.

It also takes the 65-note rolls, which are used on most all other player pianos, so that it gives all of the advantages of these instruments with the additional 88-note feature.

With the 88-note scale, as arranged in the Conover, Cable and Kingsbury *Inner-Player* Pianos, any composition ever written can be placed upon a music roll and played without the slightest modification from the original.

PIANOS

88 and 65-note combination, Conover, Cable and Kingsbury, From \$725.00 to \$1,000.

The Euphonia Player Piano

Is the best moderate priced instrument of its type. Every part of the Euphonia is made in our own factory. Most other player-pianos are produced by assembling parts made by different makers.

At the Woman's Club.
The musical given at the Woman's Club yesterday afternoon was an unusually charming entertainment, and one of the most enjoyable afternoons this fall, a great many members and out-of-town guests being present. The program, arranged with the usual good taste of Dr. and Mrs. Hoen, seemed pleasing in all points, and if any number is to be ranked in appreciation, above the others it was Traumbilder, from "Hansel and Gretel," by Humperdinck, repeated by request at the end of the program.

The musical afternoons at the club always bring out a larger number of members than usual, and some of the special guests were: Mrs. Allen, of Roanoke; Mrs. Robert Eden Peyton, of Easement; Mrs. Dillard, Mrs. Thomas Whitte, Miss Shelton, Rev. G. O. Poin-dexter and Mrs. Joseph Johnston White, of Alabama.

OF INTEREST TO WOMEN

BY VIRGINIA WESTOVER.

Correspondents are requested to send communications on subjects in which they are interested and regarding which they desire information to the Editor of the Woman's Page.

What can you tell me about Mrs. Potter Palmer, the social leader of Chicago?

M. V.
Before her marriage Mrs. Palmer was Miss Bertha Honoré, of Kentucky. She has two sons—Potter Palmer, Jr., and Honoré Palmer—to whom she is greatly devoted. She is also very fond of her niece, the Princess Cantacuzene, of her grandchildren and great-nieces. She is a great traveler, having been to London, Paris, Nice and Monte Carlo, as the whim seizes her, living in Hampden House, the former residence of the Duke of Abercorn, when she is in London, or entertaining King Edward and his family in America, she fluctuates between New York and Chicago, or visits friends in the country, clubhouses of northern Michigan or Wisconsin. She is never given to levity and is always reserved.

Holiday Bonhomie Box.
I wish to send a box of home-made candied violets and rose leaves to a friend at Christmas-time. Can you tell me how they should be prepared?

F. L.
Select a few dozen fine violets, the Princess Louise being the best. Cut the stems off short and arrange the blossoms in rows on a smooth table or board. Arrange your rose petals in the same manner. Purchase a half-dozen fragrant roses, pink and white, thus securing a pleasing color scheme. Pluck the petals carefully, one by one, and place the largest and most perfect in rows with your violets. Take one-half pound of loaf sugar and enough water to dissolve it. Boil the mixture until it thickens, and then remove from the fire and, while it is still at boiling point, plunge in the prepared violets. Great care must be taken in this process, but several trials will show the best way. The blossoms must be plunged singly, using a fork or hatpin. As the flowers are laid on a buttered paper a blunted hatpin should be used to straighten the petals and put them in natural shape. If a second plunge is required, allow the first coating to crystallize thoroughly. This may be repeated, using Grace Adele Pierce, in the quire, says Grace Adele Pierce, a quarter of an hour. For the rose leaves, the liquid should be cooled somewhat, as the color of the petals is lost by using the crystallizer at too high a temperature. Otherwise treat the rose petals like the violets.

General Officers.
What general officers of the United Daughters of the Confederacy were elected on October 22 at Houston, Texas?

N. A.
V. F. McSherry, president; Mrs. L. C. Hall, of Arkansas; Mrs. M. E. Bryan, of Houston; Mrs. Thomas T. Stevens, of Georgia, vice-presidents; Mrs. N. V. Randolph, of Richmond; Mrs. J. W. Tench, of Kentucky, honorary president; Mrs. A. L. Dowell, of Alabama, recording secretary; Miss Childress, of New Orleans, corresponding secretary; Mrs. C. B. Tate, of Virginia, treasurer; Mrs. J. E. Gaunt, of Missouri, registrar; Mrs. J. Ender Robinson, of Richmond, historian; Mrs. L. H. Holmes, of Georgia, and Mrs. Frank Anthony Walke, of Norfolk, Va., custodians of crosses of honor, flags and pennants.

Housekeepers' Club.
Can you tell me something of the Housekeepers' Club of Memphis, and its work?

V. F. B.
Its present work is the establishing of hygienic family laundries in every ward of the city. It gave the city its first playgrounds, seven in number. It introduced the "annual cleaning day," and introduced domestic science into the schools.

Test of Tenderness.
How can a housewife in selecting a dressed goose tell whether it is young and tender?

H. S. F.
Look at the bill and feet. In a young goose they are yellow and the legs have few hairs on them. If the bird is old the bill and legs are red. The feet of the goose are pliable when it is freshly killed, and dry and stiff when it has been killed some time. In choosing a goose, the breast should be plump and hard.

SOME FORMS OF PARALYSIS ARE CURABLE

An Akron, Ohio, Woman Tells How She Was Benefited by the Tonic Treatment for Nervous Troubles.

There are still people who say that no form of paralysis can be cured. If you have partial paralysis or some other severe nervous disorder, do you think it is better to be treated by someone who insists that you are incurable, or to take a treatment that grateful patients throughout the United States testify has cured them?

Mrs. James B. Sharp, of 54 South Summit street, Akron, Ohio, says: "In October, 1905, I suffered a stroke of paralysis which affected the entire left side of my body. I do not know what brought it on for I had been in good fair health up to that time. The stroke came on in the night and I first felt it in my left hand and it then extended over my left side. There was a numbness in my left hand and side and I was unable to move myself. I was helpless in bed for four weeks. My left eye was affected and was very painful and there were queer, sharp pains through my arm."

For four weeks I was under a doctor's care. He said I had paralysis and considered my case serious. My stomach would not retain his medicine and he did not help me. Through reading a paper my daughter got me to take Dr. Williams' Pink Pills. I used them regularly for several weeks and my faith in them grew as I found I was getting better. It was nearly a year before I recovered the use of my hand but long before that my left side had been so relieved of its numbness that I could walk around the house and go out doors. I am now in better health than I have been at any time during my life and I attribute my health to Dr. Williams' Pink Pills. I take the pills now and tend to tone up my system and would not be without them."

Every person interested should send today for our free booklet, "Diseases of the Nervous System."

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by Dr. Williams Medicine Company, Schenectady, N. Y.

public schools. Through its efforts a civic Progress League has been organized, shade trees are being planted, and the sum of \$800 toward equipping a tuberculosis hospital has been raised.

What Did Virginia Say?
Did Virginia, through her representatives present, take no part in the discussion on October 22, at the Houston convention, regarding its acceptance of the Teachers' College, Columbia University, New York?

W. T. K.
Mrs. C. B. Tate, representing the following resolution: "Whereas, this convention has again endorsed Columbia Teachers' College by renewal of scholarship to that institution, Virginia enters her earnest protest against such action, and asks that this resolution be spread upon the minutes without discussion."

When Mrs. Tate's resolution was read it caused the discussion led by Sister Ether Carliotta, of Florida, and the withdrawal of contributions pledged by delegates from Florida and by others.

Ribbon Sandwiches.
I wish to make some ribbon sandwiches for an informal luncheon. Please tell me how.

C. H. F.
Cut five slices of white bread from a loaf and spread each with fresh, sweet butter that has been softened. Trim off the crust from the slices and shape evenly into squares of three by three inches. Spread a first slice with cream cheese rubbed smooth with minced parsley and cream that has been sprinkled with lemon juice. Use a dainty shaving of smoked tongue freed from skin and gristle for the next slice. For the third, take the rice of a hard-boiled egg, seasoned with salt and a little mustard, for the fourth a thin slice of cold, baked ham. Top all with a fifth slice laid buttered side down. Wrap carefully in a damp cheesecloth and weight it for several hours. When ready to serve, remove the cheesecloth and divide the little brick into thin slices with a sharp knife, showing lines of green, red, yellow and pink in the sandwiches.

PAVING STONES WERE NOT STOLEN

Committee Reports That Charge Did Not Justify Sensation That Followed.

After hearing from a number of witnesses last night, the special committee of the Council appointed to inquire into the alleged theft of paving stones from the city, reported that there was no misappropriation demanding Council action, the committee merely forwarding to the Council for information a statement of the facts brought out. In one instance it was shown that stones had been removed from a city pile by a negro driver, but that they had been promptly replaced by his employer. In two other cases where old paving was being replaced and where the ancient cobble stones were valueless, the City Engineer said he had told contractors that they might have the stones if they would haul it away, saving the city the cost of hauling it to some dump. In the case of an alley which it had been alleged had been paved by a contractor partly with old material, the records were clear that the instructions were to relay it with new, and old stone so far as it was good, and with new for the balance. The bill showed charges at the contract prices for the proper number of square yards of old and of new paving.

Some Were Worthless.
The committee, consisting of Councilmen Selph, Cutchins and Alderman Ellett, first took up the case reported by Mr. Selph, which had caused the inquiry. City Engineer Bolling stated that the city had a dump on a lot on Spring Street belonging to the State Penitentiary, where the spalls formerly used in paving gutters on Grace and Franklin Streets when smooth paving was laid on those thoroughfares were hauled and from time to time the pile had been picked over and the better stones used for repairs to streets. The pile, he said, was now practically valueless, containing only the refuse. Contractor Gasser, who held the city contract for repairs last year, now holds the contract for the city, and the city is now using the stones, which he had hauled three loads from the city pile, which he had returned when his attention was called to the matter.

Mr. Ellett said it was a natural mistake on the part of the driver, who, while Gasser held the repair contract, used to haul from the city pile, and that since the stones were almost entirely valueless, and did not come to present paying specifications, no further action need be taken.

The records being even more clear in the other cases, the committee, headed by Chairman Selph to draw up a report to the Council showing the facts brought out and recommending no action.
